

MR-20 Duet

Professional Under-Counter Water Purifier with Activated Carbon Filtration & Stainless Steel Faucet

MR-20 Duet - an under-counter water purifier for your kitchen including 2 active carbon filters and a premium stainless steel faucet. A reliable and efficient solution designed for families seeking pure, clean water without complexity.

Dual Purification with Advanced Carbon Filters + Modern Design Stainless Steel Faucet

Clean Water. Simple Installation. Reliable Solution for Domestic Use

The MR-20 Duet is a compact, efficient filtration system that requires no electrical connection, designed for purifying water for drinking, cooking, and all food preparation purposes. An excellent solution for family daily use requirements, easily installed under the sink with an elegantly designed stainless steel faucet.

NO ELECTRICITY REQUIRED

Simple installation with no electrical connections - operates solely on water pressure for reliable, maintenance-free operation.

Main Benefits

Manufactured under strict quality standards	Suitable for cooking and drinking for the whole family
Quiet and convenient operation No electricity required	Designer stainless steel faucet Simple and quick operation
Refrigerator compatible Can be connected to water dispensers or ice production	Approved for Sabbath use Certified by Tzomet Institute

Why Choose MR-20 Duet?

Advanced Water Purification Solution Professional-grade filtration technology designed for reliable and long-lasting performance in residential environments.	Tested and Approved by the Israeli Standards Institute Certified quality and safety standards ensuring pure, safe water for your family.
Suitable for All Regions Compatible with all types of water in municipal or community water supply networks across the country.	Preserves Essential Minerals Provides high water quality while preserving existing essential minerals your body needs.
Ideal for Daily Family Use <i>Perfect for families with children. For babies and infants, the Mei Baby model is recommended.</i>	Simple Installation and Maintenance Easy under-counter installation with minimal maintenance requirements - perfect for busy households.

4-Stage Filtration Process

1	Stage 1 - Mechanical Filtration (5 microns) Filtering particles, rust, sand, solids, and suspended matters through precision 5-micron filtration.
2	Stage 2 - Granular Activated Carbon Filter Model OMNIPURE OMB934-5M for initial treatment of chlorine, micro-plastics, off-tastes, and odors. Reference: OMNIPURE green lines PDF - https://meiraveh.co.il/wp-content/uploads/2024/09/OMNIPURE-green-lines-updated-compressed.pdf
3	Stage 3 - Compressed Activated Carbon Filter Model OMB934-0.5ML for extended treatment of lead, volatile compounds (VOC), cysts, THM, cryptosporidium, PFAS, and giardia. Reference: OMB934-5M compressed PDF – https://meiraveh.co.il/wp-content/uploads/2025/04/OMB934-5M-MR33-R20-compressed.pdf
4	Stage 4 - Final Sub-Micron Filtration (0.5 micron) Preventing passage of bacteria and other micro-organisms through ultra-fine 0.5-micron filtration. Certifications & Approvals

Israeli Standards Institute Certifications:

[SII - Standards Institution of Israel](#) | Permit No. 14316: Filter, chemical purifier

Tested and approved by Israeli Standards Institute laboratories: [Chemical Tests](#) and [Microbiological Tests](#)

Adapted for Sabbath observers - certified by [Tzomet Institute](#)

Option to connect to refrigerator with water dispenser / ice production

Technical Specifications

Specification	Value	Description
Min. Pressure	2.0 Bar	Minimum required water pressure
Max. Pressure	6.0 Bar	Maximum operating pressure
Max. Recommended Flow	2.5 liter / min	Maximum recommended flow rate
High Quality Faucet	Stainless steel SS-304	Premium dispensing faucet material
Final Filtration	0.5 micron	Sub-micron filtration level
Height	34.0 cm	Unit dimensions
Depth	14.0 cm	Unit dimensions
Width	28.0 cm	Unit dimensions
Weight	3.6 kg	Total unit weight
